Professional Summary

I help teams make smarter decisions using data. I ask questions, clean messy data, and build dashboards people use. Proficient in SQL, Excel, Power BI, Python, and Google Analytics— with hands-on experience turning data into insights that saved time, improved reporting, and supported business growth.

Skills & Tools

Languages: Python, SQL, DAX

Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

Visual Tools: Power BI, Tableau (basic)

Databases: MySQL, Microsoft Azure (Azure SQL, Azure Data Studio)

Others: Data Analytics, ChatGPT, Microsoft Excel, Problem-Solving, Communication, Critical Thinking, Business Intelligence

Professional Experience

Data Analyst Intern (Power BI | Visualization)

Cognifyz Technologies – July 2024 - Aug 2024

-Designed and deployed 3+ interactive dashboards in Power BI, improving data visibility for global metrics; used Python (Matplotlib, Plotly) to uncover trends in happiness index data.

Data Analyst Trainee (Machine Learning | Python | SQL)

GRAS tech – Oct 2024 - Dec 2024

-Completed an intensive, project-based program focused on machine learning and analytics. Built end-to-end data solutions using Python (Pandas, NumPy, scikit-learn), SQL, and Power BI to simulate real-world business workflows

Key Projects

Youth Trends Analysis (Jan 2025)

- Built a real-time Power BI dashboard analysing Gen Z mental health, social media usage, and career trends.
- Automated data ingestion and preprocessing using Python (Pandas, SQLAlchemy) from Google Sheets to MySQL.
- Delivered insights like a 40% correlation between screen time and mental health, using advanced visuals and DAX-driven filters

EDA on the Job Market Trends (March 2025)

- The data was sourced from Luke Barousse's Python Course, which provides a foundation for my analysis, containing detailed information on job titles, salaries, locations, and essential skills.
- Through Python scripts, I explore key outcomes, including SQL, which is the most in-demand skill (approximately 50%), salary trends, and the intersection of demand and salary in data analytics.

Extracurricular Activities

-Active member of a Non-profit NGO, Skill Aid Empowerment India Foundation, for personality development.

Kaggle Dataset Contributor – Youth Survey 2025. Published an original Gen Z survey dataset on Kaggle to explore trends in youth mental health, career aspirations, and social behaviour.

Education

BCA – Bachelor of Computer Applications

GNIOT Institute of Professional Studies, Greater Noida

Expected July 2025 | CGPA: 7/10

Certifications

- Power BI for Beginners, Microsoft
- Career Essentials in Data Analysis, By Microsoft & LinkedIn (May 2025)
- Google Analytics Certification – Google Skillshop (June 2025)
- Personality Development, Skill Aid Empowerment India Foundation (March 2025)
